

Building a stronger community, together!

United Way of Sumter, Clarendon and Lee Counties is making a difference in people's lives. Working with you and many community partners, we identify the needs of our community and prioritize how we invest resources to create lasting positive change.

With our combined caring power, we find solutions that restore hope and confidence for our neighbors.

United Way brings people and businesses together to address the community's most critical needs. The collective power of this collaboration is far greater than one organization could accomplish alone!
